

EURO-STYLE 30" 5-BURNER GAS COOKTOP

Signature Features

LOW-PROFILE DESIGN

With an extremely low profile, you can have a minimal look — nearly flush with the countertop — for an integrated transition to the cooktop.

6,000 BTU BRASS SIMMER BURNER

Melt chocolate and butter or simmer sauces just below boiling with a high-precision burner that offers a wide range of power.

ELECTRONIC IGNITION AND FLAME-SENSING™ RE-IGNITION

Gas burners light reliably every time, and if a draft blows the flames out, they are automatically re-ignited.

EURO-STYLE STAINLESS DESIGN

With design elegance, this stainless steel suite combines modern aesthetics and classic flair for a timeless, upscale look.

WHITE LED BURNER INDICATOR

White indicator light glows indicating when a burner is on, providing a modern look and a convenient reminder for cooks.

9,000 BTU BRASS BURNER

Perfect for everyday cooking, this brass burner also allows you to meet special cooking needs like sauteing and braising.

18,000 BTU BRASS POWERBURNER

Enjoy the elegance of brass and robust heat from this PowerBurner that's necessary for high-powered cooking techniques, whether searing a steak, stir-frying vegetables or rapidly boiling water.

SINGLE POINT ELECTRONIC IGNITION AND FLAME-SENSING™ RE-IGNITION

If the flame is accidentally blown out by a draft, a spark occurs that automatically re-ignites the extinguished burner.

INFINITE BURNER CONTROL SETTINGS

Enjoy precise temperature controls by selecting your preferred burner setting — from low to high and everywhere in between.
